Principal's Message

Amidst the stabilising COVID-19 epidemic in Hong Kong, the school is moving steadily forward along the path to normalcy. The epidemic has been raging across the globe for approaching 3 years, and there were still a number of infected cases about our students reported recently. I herein wish all families will stay healthy. As the COVID-19 vaccination rate of the second dose on our students has exceeded 90%, I am so gratified to see the resumption of whole-school face-to-face classes starting from 19 September 2022. For the physical and mental well-being of our students, we have relaunched interactive learning and co-curricular activities on various fronts in an orderly manner.

According to the latest EDB circular, the vaccination requirement for students for resumption of whole-day face-to-face classes from 1 November 2022 onwards will be raised to 90% or more of the total number of students having received three doses of vaccine. We must gain our parents' full cooperation to let our students receive enough doses of vaccine for the sake of both their health and enhancing learning and teaching effectiveness, especially that we will be arranging our 60th Anniversary activities in the present school year. I would like to take this opportunity to invite you all to share the joy in celebrating our Diamond Jubilee to achieve the mission "Cognitio Diamond, Eternal Brilliance"!

School Year Beginning Ceremony

1 September 2022

Our students attended the captioned ceremony on the first day of school. During the ceremony, Mr. Tam, the Principal introduced the new teachers, new staff, new Social Worker (Ms. Ho Ngan Fei, Michelle), as well as the Administrative Teachers to the students. This year, the school appoints Mr. Li Chiu Fai and Mr. Li Man Fai as the Assistant Principals. Students were particularly curious about the new faces.

Full-day face-to-face Class Resumption

19 September 2022 onwards

To maximize the learning time for keeping up with the tight curriculum, a special timetable is designed and adopted. Time periods allotted for the endeavour classes, remedial classes and co-curricular activities are also included. Various classes are arranged specifically for catering for learner diversity and individual learning needs.

Lunch arrangement

19 September 2022

Students may opt for staying at school, going outside or returning home for lunch upon whole-day class resumption. To reduce the risk of infection while having lunch with their masks off, the school will make special arrangements on the school campus during the lunch break. Opting for staying at school for meals, each student has to remain at his/her designated seat, well-separated with another. By observation, our students were very well-behaved on the first day of lunch at school. For instance, students only chatted with their schoolmates when wearing their masks correctly, and disposed of the wastes properly in an orderly manner after finishing their meals.
