Principal's Message

We are excited to announce the opening of our new exhibition space, the KaiTak@KowloonCity Study Centre (啟城學堂), named in honor of our former Principal, Mr. Tsui Siu Keung. This innovative facility comprises two rooms and a connecting corridor, located on the 1st floor of our school campus.

Since our relocation to the Kai Tak Development area in 2019, we have embraced a vibrant learning environment enriched by the area's cultural and historical significance. We are eager to enhance our curriculum with elements reflecting the dynamic context of Kowloon City. The new Study Centre will provide interactive exhibitions and immersive experiences, enabling students to explore Kai Tak from various perspectives and exhibit their achievements.

In designing the Centre, our goal was to enrich students' learning experiences. As our School Supervisor, Ms. Au-Yeung Wai Yin, noted in her welcome speech, "The Principal and I have examined the qualities our students need to thrive in this era of artificial intelligence. We believe that students should develop strong humanistic qualities, information technology skills, confidence, creativity, and a spirit of proactive learning. In light of this, we have designed a cross-disciplinary curriculum and project-based studies through the Centre."

I want to express my heartfelt gratitude to the experts from various fields who provided invaluable advice during the preparation of our venue. Special thanks go to the Education Bureau (EDB), the Highways Department, and Prof. Tam Ka Chai from Hong Kong Baptist University for their support. I would also like to sincerely thank alumnus Wong Yiu Keung for his significant contributions to project design, guidance, and oversight. Finally, I am deeply appreciative of the dedication and effort shown by our teachers and students.

Kai Shing Chinese Culture Day (啟城中華文化日)

21 October 2025

The school has launched plans to integrate new learning contexts about Kai Tak and Kowloon City into the curriculum. On 21 October 2025, we held a cross-curricular activity day to promote Chinese culture and enhance students' awareness of this rich heritage through experiential learning. Our goals include encouraging community engagement, fostering a sense of national identity, and promoting the preservation of Chinese culture. Activities included booths, exhibitions, cultural performances, and quiz games, organized in collaboration with various Subject Panels, including Citizenship & Social Development, Chinese Language, Chinese History, History, Citizenship, Economics & Society, Physical Education, Music, as well as the Reading across the Curriculum Team and the Moral, Civic & National Team.

Talks on the history and future development of Kowloon City

7 November 2025

On 7 November 2025, we are grateful to Prof. Tam Ka Chai from the Hong Kong Baptist University and Ms. Pun Ka Yan from the Highways Department for visiting our school to share their insights with our S4-5 students. Prof. Tam provided an engaging overview of the historical relics of Kowloon City, while Ms. Pun discussed the latest developments regarding the Central Kowloon Bypass, connecting Yau Ma Tei to Kai Tak. I believe the students gained valuable inspiration and knowledge from their presentations.

Opening Ceremony

7 November 2025

Our new Study Centre was officially opened on 7 November 2025. We were honoured to have distinguished guests, including Dr. Chan Pik Wah Gloria, Deputy Secretary of the Education Bureau, the Chairmen of the Kowloon City District School Heads Associations, and representatives from the Cognitio College Board of Directors, as well as the Incorporated Management Committee and sub-committees, to officiate at the event. A special thank should be given to Dr. Chan for her gracious speech. Following the ceremony, we arranged a visit to the Centre for our guests and friends, with students serving as ambassadors to showcase its unique features.
